4th Graders.

Here is a family situation that really happened. The family had an older sister who was pretty brainy. The next child was a son who struggled to make good grades. So the parents decided to pay the girl \$1 for each A she got on her report card. They did this to make the brother want to try harder in school. Did he try harder? Did he make A's too? No! Did he become very jealous of his big sister? Yes. Who sinned? The parents sinned by setting it up for jealousy, right? And the brother sinned by being jealous. It was a sad thing to happen.

Did you ever feel jealous? Explain.

When Jacob gave Joseph that beautiful coat was it a sin? What could Jacob have done to make the situation better? I think he could have made 13 coats instead of just one. When have you seen something that someone has and wished it were your own? What was it?

Here is another true story. The older son in this story was two years older than the younger son. He could run faster than his brother. He could shoot baskets better. He could beat him in any game they played together. One day the younger boy just said, "I quit. I will not play any more with my older brother." Which part of the verse did the older brother not understand. "Love is patient. Love is kind. Love does not envy. It does not boast. It is not proud."
